EXPERIENCE — 7 YEARS 11 MONTHS

RABATA Frontend Developer

March 2025 — March 2026 /
1 year 1 month

Tech Stack: vanilla JavaScript, TypeScript, jQuery, Bootstrap, Twig, PHP.

Responsibilities:

- Contributed to multiple product platforms and user-facing web applications.
 - Improved video streaming functionality and user experience.
 - Helped scale the Clips section to more than 10k+ daily views.
 - Optimized Core Web Vitals and performance metrics, bringing key pages into Google's green zone.
 - Modernized legacy codebase and improved maintainability.
 - Introduced AI-assisted development workflows using Cursor, Claude and Codex.
-

WEBBANKIR Frontend Developer

February 2024 — March 2025 /
1 year 2 months

Tech Stack: JavaScript, TypeScript, Vue 3, Nuxt, Pinia, Tailwind.

Responsibilities:

- Developed and maintained internal administrative systems and customer-facing interfaces.
 - Delivered new product features and business functionality.
 - Improved frontend stability and maintainability.
-

LIVETYPING Frontend Developer, Contract

January 2024 — June 2024 /
6 months

Tech Stack: JavaScript, TypeScript, Vue 3, Pinia, Quasar.

Responsibilities:

- Built a transportation tender management platform "Electronic Trade Portal" from scratch using Vue 3.
 - Designed frontend architecture and application structure.
 - Implemented authentication, role management and tender workflows.
 - Integrated frontend with backend APIs.
-

MARFATECH Frontend Developer, Contract

June 2023 — November 2023 /
6 months

Tech Stack: Vue 3, TypeScript, Pinia, micro-frontends.

Responsibilities:

- Participated in migration toward micro-frontend architecture.
- Developed new product functionality and improved existing user flows.
- Worked in a fast-paced product environment with frequent releases.

AK BARS DIGITAL

Frontend Developer

June 2022 — June 2023 /
1 year 1 month

Tech Stack: JavaScript, Vue 2/3, Nuxt, Vuex, Quasar.

Responsibilities:

- Developed customer-facing interfaces for a major banking platform with Vue and Nuxt.js.
- Worked with SSR applications and BFF integrations.
- Improved performance and brought key pages into Google's green PageSpeed zone.
- Collaborated with cross-functional teams on digital banking products.

LENVENDO

Frontend Developer

April 2021 — May 2022 /
1 year 2 months

Tech Stack: JavaScript, TypeScript, Jest, Vue 2, Nuxt, Vuex, Vuetify, Pug, Stylus.

Responsibilities: Delivered frontend solutions for large-scale e-commerce and enterprise projects

SberMegaMarket (online food and goods delivery service)

- Designed frontend architecture for a marketing experiments platform.
- Built administrative interfaces and business tools.
- Implemented CRUD operations for experiment workflows and ROI calculators.

Magnit (chain of retail stores)

- Developed marketplace and delivery service interfaces.
- Maintained and improved a Vue application built with TypeScript.
- Added automated tests using Jest.
- Worked with CI processes in a large development team.

Eldorado (retail chain selling consumer electronics)

- Redesigned the Eldoblog portal.
- Improved performance, accessibility and maintainability.
- Optimized blog performance for Google PageSpeed and real users.

1C-UMI

Frontend Developer

April 2018 — April 2021 /
3 years 1 month

Tech Stack: HTML, CSS, JavaScript, jQuery, PHP, XSLT, Docker, Axios.

Responsibilities:

- Developed and maintained functionality for a large website builder platform.
- Worked with extensive legacy codebase.
- Improved Google PageSpeed metrics.
- Built HTML templates for a website builder and maintained XSLT/PHP templates.

EDUCATION

SARATOV Y. A. GAGARIN STATE TECHNICAL UNIVERSITY, IRBIS, SARATOV
Information systems and programming faculty

2010

ABOUT ME

Senior Frontend Developer with 8 years of commercial experience building web applications, enterprise platforms, fintech products, administrative systems, and high-load web interfaces. Specialized in Vue.js ecosystem (Vue 2/3, Nuxt, Vuex, Pinia), TypeScript, frontend architecture, performance optimization, and scalable web applications.

Experienced in FinTech, Banking, E-commerce, SaaS, Media and Startup environments. Strong background in Core Web Vitals optimization, SSR applications, legacy modernization, and building maintainable frontend architectures.

Actively leveraging AI-powered development tools including Cursor, Claude and ChatGPT to improve engineering productivity.
